Christmas 1960

Dear Ty —

Christmas good wishes to you and Mrs Abbott. It has been quite a year — made possible by the fine support and cooperation given to me by you and the other fine people who make up our top staff. I'm grateful for your efforts — I shall miss the association as I go back to Cleveland. But I have great faith in all of you and I am sure that NASA will distinguish itself in the months ahead.

Thanks, Ty, for your friendship.

Sincerely

Keith
