Associate Director

Head, 8-Foot Tunnels Branch, FSRD

Transmittal of Langley Working Papers 505 and 603 to the Fairfield Technology Corporation

The reference letter requests copies of Langley Working Papers 505 and 603 and indicates that Fairfield Technology Corp. is cleared for SECRET. However, they provide no reason or need to know for obtaining these papers. It is suggested that they be requested to provide a written justification of their need to know.
