MARTIN SELECTED HEAD OF NASA LANGLEY PUBLIC AFFAIRS OFFICE

J. Campbell "Cam" Martin has been named head of the Public Affairs Office at the NASA Langley Research Center. In this position he is responsible for the center's public information and public affairs programs, coordinating activities with NASA Headquarters, other NASA centers, the aerospace industry, other government agencies and academia; serves an advisor to top management on public affairs related issues; is the chief speech writer and chief media spokesman for the center; works closely with national and international print and broadcast media regarding the center's research programs; and oversees preparation of news releases, press kits, fact sheets, brochures, scripts, the in-house newspaper, and video and audio productions, reviewing same for accurate technical content.

Martin came to NASA from the Continuous Electron Beam Accelerator Facility (CEBAF) in Newport News, where he was the special assistant for public information. Before joining CEBAF, he served in the U.S. Navy as the Naval Air Force Atlantic deputy public affairs officer and surface warfare officer.
A native of Butler, Penn., Martin received a bachelor of science degree in business administration from Pennsylvania State University in 1976. He received a master of arts degree in administrative science (information systems) from George Washington University in 1988. He is a member of the Aviation Space Writers Association and the Public Relations Society of America.

He and his wife, the former Susan Jacob, live in Virginia Beach. They have a son, Scott.
