Memorandum

TO: M/S 359, Dr. R. T. Whitcomb

FROM: Technology Utilization Office, Mail Stop 139-A

DATE: October 12, 1972

SUBJECT: NASA Grant NGR 33-016-167 Supplement 1, Numerical Design of Transonic Shockless Airfoils, New York University

This grant is subject to Section 305 of the National Aeronautics and Space Act of 1958, which requires the grantee to furnish a written report concerning any "invention" made in the performance of work. The term "invention" includes any invention, discovery, improvement, or innovation, whether or not patentable.

You as the Technical Monitor of this grant are asked to identify any items you know of which the grantee should report. Please indicate your reply in the space below and return this memo to the Technology Utilization Office.

I am aware of no items which should be reported.

I am aware of the following items which might be considered an invention, discovery, improvement, or innovation:
