Corporation  
Marietta, Ga.

Attention: Mr. Jack H. Patterson

Gentlemen:

Subject: Modifications to the C-141A

In Mr. Jack H. Patterson's letter of May 1, 1964 (E-7-558-64) to Dr. R. T. Whitcomb of this Research Center, he described the results of investigations of modifications to the C-141A which were suggested by Dr. Whitcomb and investigated at the Aerospace Research Center.

Dr. Whitcomb appreciates the receipt of this information very much. He found that the results, while disappointing, were most interesting and informative.

Sincerely yours,

Floyd L. Thompson
Director
