Head, 8-Foot Tunnels Branch, FSRD

Services of Professor Martin Sichel as lecturer consultant

It is requested that the services of Professor Martin Sichel of the University of Michigan be secured as a lecturer consultant for one day on or about July 22, 1968. Professor Sichel, who is associated with the Department of Aerospace Engineering, will discuss his work on transonic viscous flows with all persons involved in this area of work at the Laboratory. Also he will be available for consultation with such persons on their particular areas of work.

It is requested that transportation and other costs of this visit be placed on job order REH-505 which is under the task 126-13-01-29.
